BRACKETS

INTEGRA

Integra sets the performance standard for one-piece brackets. In an independent test by the Ortho-Cycle company, our one piece brackets were judged the hardest and ranked with the most corrosion-resistant. For positive results with all bonding systems the bases have deeply machined, highly retentive angulated undercut grooves. Brackets are low profile, easy to ligate and have an exceptionally smooth non-irritating finish. Made in the U.S.A.
